PROJECTS

SQL Query Validator [Python](#) · [SQLite](#) · [HTML](#) · [CSS](#)

2025

- Built a web app with a responsive HTML/CSS front end that validates user-written SQL queries against an embedded SQLite database in real time, detecting syntax errors.

Campus Event Management System [Java](#) · [Spring Boot](#) · [Hibernate](#) · [JPA](#) · [MySQL](#)

2025

- Developed a full-stack web app with a student-facing UI for event registration and an admin interface to create, update and track events.
- Implemented RESTful APIs with Spring Boot, persisted data via Spring Data JPA/Hibernate, structured with Maven and MVC.

Smart Study Planner for Placement Preparation [Python](#) · [Flask](#) · [SQLite](#) · [JavaScript](#)

2024

- Developed a personalized study-planner web app with interactive JavaScript-driven UI and a Flask + SQLite backend to track topics, targets and placement-prep progress.

Global Disaster Intelligence Platform [Python](#) · [Machine Learning](#) · [SQL](#) · [Data Visualization](#)

2026

- Built an ML analytics platform with interactive dashboards classifying global disaster events from historical data to generate predictive risk insights.
- Performed data preprocessing, feature selection and EDA; used SQL for structured storage and front-end visualizations for trend analysis.

EXTRA CURRICULAR ACTIVITIES

- NCC 'C' Certificate holder; volunteered with the National Cadet Corps, demonstrating discipline, leadership and teamwork.
- Completed workshops on Artificial Intelligence (IISER Pune), Astronomical Data Understanding, Visualization & Analysis (Fergusson College), and AI Tools in Daily Life (Bhaskaracharya Pratishtan).
